Hal Roseman, MD, MPH, FACC

Dear New Patient,

It is with enthusiasm that I welcome you to my preventive cardiology practice. My practice is distinguished by offering a personalized style of care that is reminiscent of earlier times when physicians spent time to get to know each patient in order to make personalized treatment plans. Please be prepared to spend approximately two hours for the first visit.

In order to facilitate the visit, I request you to:

- Bring all medications that you are currently taking
- Bring all medical records that you have in your possession
- Sign a release of information form so as to allow my office to obtain any relevant past medical records (preferably several weeks prior to appointment)
- Fill out "New Patient" Form
- Read our privacy statement.
- Fill out and sign "Disclosure Notice" that instructs us how to communicate information without violating your privacy rights.
- Fill out and sign "Patient Information" form.
- If using insurance, please bring your current insurance card
- Bring in a photo id, such as a driver's license (which we will photocopy), for identification purposes.

[Please note that all of this information is available at www.cardiologywellness.net.]

I know this is a significant amount of paperwork but necessary given the medical insurance environment in which we operate.

I look forward to seeing you.

Best of health,

Hal Roseman, MD, MPH, FACC, FACP
